📍 Hyderabad, Telangana, India

PROFESSIONAL SUMMARY

Highly motivated and results-driven B.Tech Information Technology student graduating in 2026 with strong expertise in Artificial Intelligence, Machine Learning, Python, SQL, and Data Structures & Algorithms. Hands-on experience in developing AI-powered applications, building data-driven solutions, and implementing machine learning models through academic projects and professional training. Skilled in problem-solving, software development, data analysis, and model evaluation. Passionate about leveraging AI technologies to solve real-world business challenges and contribute to innovative product development.

EDUCATION

St. Martin's Engineering College <i>Bachelor of Technology (Information Technology)</i> • CGPA: 8.12	Hyderabad, India 2022 – 2026
Sri Aryabhatta Junior College <i>Intermediate (MPC)</i> • Percentage: 72.5%	Hyderabad, India 2020 – 2022
Zilla Parishad High School <i>Secondary School Certificate (SSC)</i> • CGPA: 10.0	Hyderabad, India 2019 – 2020

TECHNICAL SKILLS

Programming Languages: Python, SQL (MySQL)
AI & Machine Learning: Machine Learning, Deep Learning, Predictive Analytics, Classification Models, Model Evaluation, Data Preprocessing, Feature Engineering
Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Engineering
Data Analytics & Visualization: Pandas, NumPy, Power BI, Microsoft Excel
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, LeetCode
Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication Skills, Adaptability

PROFESSIONAL TRAINING

AI & Data Science Trainee <i>QSpiders</i> • Undergoing industry-focused training in Artificial Intelligence, Machine Learning, Python Programming, SQL, and Data Structures & Algorithms. • Building machine learning models for predictive analysis and classification problems. • Performing data cleaning, preprocessing, feature engineering, and model evaluation using Python. • Developing AI-driven solutions using real-world datasets and industry use cases. • Practicing algorithmic problem-solving and coding challenges to strengthen technical expertise. • Gaining practical exposure to Git, GitHub, software development lifecycle, and project deployment methodologies.	Feb. 2026 – Present Hyderabad, India
--	---

PROJECTS

AI-Based Tool for Preliminary Dermatological Diagnosis • Developed an AI-powered dermatological diagnosis system for automated skin disease prediction. • Achieved 92% prediction accuracy through machine learning model optimization and validation. • Implemented data preprocessing, image classification, feature extraction, and performance evaluation techniques. • Built a responsive web application enabling real-time diagnosis support for users. • Improved prediction reliability through extensive testing and model tuning.	GitHub
Weather and Air Quality Monitoring & Analysis System • Designed and developed a real-time environmental monitoring system integrating weather and air quality APIs. • Created automated ETL pipelines for data extraction, transformation, validation, and storage. • Analyzed environmental datasets to identify trends and generate actionable insights. • Developed interactive dashboards for visualizing weather and pollution metrics. • Enhanced data accuracy and system efficiency through continuous monitoring and optimization.	GitHub

RELEVANT COURSEWORK

Artificial Intelligence | Machine Learning | Data Structures & Algorithms | Database Management Systems | Object-Oriented Programming | Operating Systems | Computer Networks | Software Engineering

CERTIFICATIONS

NPTEL Online Certification - Python Programming
Google Data Analytics Professional Certificate
Microsoft Power BI Data Analyst Certification
Data Cleaning and Data Preparation using Python

ACHIEVEMENTS

- Solved 100+ coding problems on LeetCode demonstrating strong problem-solving and algorithmic thinking skills.
- Built and deployed AI-based projects involving Machine Learning and Data Analytics.
- Participated in technical learning programs focused on Artificial Intelligence and Data Science.
- Represented NIDJAM at National Level Sports Meet (2018), demonstrating leadership, discipline, and teamwork.
- Collaborated effectively on academic and technical projects in team-based environments.

LANGUAGES

English (Fluent) Telugu (Native)
